

Properties of Rhombus :

- * 2 lines of symmetry (diagonals)
- * Diagonals are perpendicular (90°)
- * All properties of parallelogram
- * diagonals bisect each other
- * diagonals ~~are~~ form four congruent triangles
- * opposite angles are congruent
- * 72° , 180° , 360° Rotation

Properties of Square :

* Diagonals : Lines that ~~are~~ connect all Non-Adjacent vertices of a Polygon
