

7.1

March 10, 2016

Skills:

List as many properties of a Rhombus as you can. (Hint: see 6.7 Notes)

- * Diagonals - bisect each other
 - are lines of reflection
 - are perpendicular to each other
- * two sets of congruent angles
- * all four sides are congruent

Circles: All points on the circle are equidistant from the center.

$$\overline{AC} \cong \overline{AB} \cong \overline{AE} \cong \overline{AD}$$

Since they are all radii of the circle
